## PROFILE

Front-End Developer passionate about creating responsive, interactive web applications. Experienced with React, TypeScript, and component-driven development. Skilled in using Ionic 6 for mobile-first UI and React-Hook-Form for efficient form handling. Eager to learn and collaborate within dynamic teams, with a strong commitment to building high-quality, user-centered solutions.

## WORKING EXPERIENCE

### 2023 - PRESENT

PT. Borwita Citra Prima I Madura, East java

#### Service Quality Assurance

As a Service Quality Assurance specialist, I improved service quality by conducting regular customer surveys, analyzing data, and providing actionable recommendations to the sales, delivery, and collector teams. I was also responsible for validating product information in stores and ensuring all employees understood and adhered to established service standards.

### January - March 2022

Lavin Technologies I Surabaya, East Java

#### Frontend Developer

Built a back-office web application for clients using React with TypeScript. Developed responsive and user-friendly UI components with Ionic 6, improving operational efficiency and enhancing overall user experience. Collaborated closely with backend developers to optimize API integration and reduce load times. Actively contributed to code reviews and implemented best practices to maintain a scalable and maintainable codebase.
